

A line drawing illustrating a remote control system. At the top, a computer system (24) is shown, consisting of a monitor, a system unit, and a keyboard. A separate antenna (26) is connected to the system unit. A wavy line (28) represents a radio signal being transmitted from the computer system towards a hand-held remote control (20) at the bottom. The remote control (20) is being held by a hand and has several buttons: a large rectangular button (30) on the left, and three smaller square buttons (32, 34, and another unlabeled one) on the right. A keychain (22) with two keys is attached to the bottom of the remote control.
